

mymail™ MAX

Desktop Postage Solution

THE PERFECT COMPACT DESKTOP SOLUTION

Innovative design, compact size, and powerful features make the FP mymail™ MAX the ideal entry-level solution for the small or home office with a low volume of mail. With one touch of a button, your mail will go out with a more professional look. The mymail™ MAX has enhanced electronics and software that make the downloading of postage a more seamless process. By using the new FP mailcredit™, customers can now utilize their internet connection, making it a breeze to download postage.

mymail™ MAX Desktop Postage Solution

KEY ADVANTAGES

PROFESSIONAL AND CUSTOMIZED MAIL

Creating a professional and customized look is as easy as the push of a button by adding your company logo and a promotional or advertising message that can be updated. To create a package label, simply run a self-adhesive postage meter label through the mymail™ MAX and attach it to the package.

FASTER MAIL PROCESSING

Your mail will be processed faster using the mymail™ MAX because the printed indicia is developed in accordance with the USPS® Information-Based Indicia Program (IBIP).

INTEGRATED 5 LB. SCALE

Accurate postage is a snap with the mymail™ MAX and the built-in 5 lb. postage scale; it immediately sets the correct postage.

EFFICIENTLY ADD NEW POSTAGE

mymail™ MAX utilizes FP's latest mailcredit™ technology to allow postage downloads using today's high-speed digital connections while having the flexibility and choice of using traditional analog phone lines as well (teleset™).

SPECIAL FEATURES

- Fully digital
- USPS® IBIP compliant
- Six endorsements
- Integrated 5 lb. scale
- Internet-based postage resetting
- 3 departmental accounts
- Store up to 3 custom messages
